is about balancing the last 10 levels.. The rounds are short, and the tempo constantly high throughout game Once a round is
finished, it takes but seconds to jump into a new game and get back to bashing your friends.. With only three buttons to keep
track of, it's a no-brainer to involve new and inexperienced players, without them feeling left behind.. LEVEL22: Made some
rails wider, one more added checkpoint close to the end of the levelLEVEL23: Some rails have been made wider, added more
rails on one part of the levelLEVEL24: Rails where you gain height have been widened, spawn rate of balls dropping from the
sky has been changed to 2.
